

OKAYAMA UNIV.

- ★ This 3rd Edition of the ERASMUS-Day at Okayama University (Last one in April-2019) will bring together students, professors, researchers and International Specialists of ERASMUS

Let's get together for a joint bright « ERASMUS future »

★ ERASMUS +

On 30 May 2018, the Commission adopted its proposal for the next Erasmus programme, with a doubling of the budget to 30 billions € for the period 2021-2027 (300 億€ = 3.8 兆円).

- ★ Building on the success of Erasmus+, the 2021-2027 programme provides learning and mobility opportunities to 12 million people, in comparison to 4 million people in the previous programme. Its focus on “**evolution, not revolution**” means that the 'Erasmus' programme continues to cover schools, vocational education and training, higher education and adult learning - youth and sport, but in a more streamlined manner.

The 2021-2027 ERASMUS programme is substantially strengthened, extended and more inclusive. It further promotes activities fostering knowledge and awareness of the EU, opportunities in forward-looking knowledge fields e.g. climate change, robotics etc. and better outreach and inclusion of people with fewer opportunities. The international dimension of the programme is also significantly boosted.

Via ERASMUS+

Investing in people, their skills, their knowledge and mutual understanding will help responding to:

**Global Challenges,
Maintain Social Fairness,
Preserve Peace.**
