ERASMUS

OKAYAMA UNIV.

Commission
européenne

★ This **4th Edition of the ERASMUS-Day** at Okayama University (Last one in April-2023) is expected to bring together students, professors, researchers and International Specialists of ERASMUS **Let's get together for a joint « ERASMUS future »**

★ ERASMUS +

On 30 May 2018, the Commission adopted its proposal for the next Erasmus programme, with a doubling of the budget to 30 billions € for the period 2021-2027

(300 億€ = 5.6兆円) - - 2026円- € rate

★ The 2021-2027 ERASMUS programme is expected to provide learning and mobility opportunities to **12 million people**, in comparison to **4 million people** in the 2013 – 2020 period. Its focus on **“evolution, not revolution”** means that the 'Erasmus' programme is continuing to **cover schools, vocational education and training, higher education and adult learning - youth and sport, but in a more streamlined manner.** From 2021 the ERASMUS programme has been substantially strengthened, extended and more inclusive. It now further promotes activities which foster knowledge and awareness of the EU, opportunities in forward-looking knowledge fields e.g. climate change, robotics etc. and better outreach and inclusion of people with fewer opportunities. The international dimension of the programme is also significantly boosted.

Via **ERASMUS+** Investing in people, their skills, their knowledge and mutual understanding responds to:

Global Challenges, Maintain Social Fairness, Preserve Peace.

日時
場所
